# **UNM Facts**

1997-1998

### Introduction

In fall 1997, the campuses of the University of New Mexico served 30,107 students, awarded 4,619 degrees and certificates, employed 2,756 faculty and 10,624 staff, and had a total operating and capital budget of about \$943 million.

UNM consists of a Main Campus located in Albuquerque, which includes the Health Sciences Center; three branch campuses that have a two-year degree mission: UNM-Gallup, UNM-Los Alamos, and UNM-Valencia; an Education Center that functions very much like a branch campus: UNM-Taos; and Graduate Centers at Santa Fe and Los Alamos. This Fact Book presents data for all these components. The UNM Health Sciences Center and its programs, which include the School of Medicine, College of Nursing, and College of Pharmacy, is included in the Fact Book sometimes as part of the Main Campus and is sometimes reported separately. Footnotes and labels should make it clear in each case what is included.

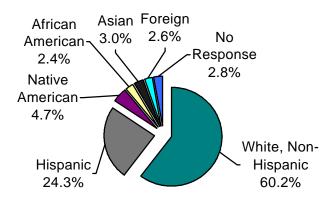

The UNM-Main Campus also delivers courses across the state, partially using live TV and electronic transmission. In addition, there is a Division of Continuing Education that serves over 40,000 people every year in both credit and non-credit courses.
